“Serenity on the River”

TUBING EVENT

Saturday

July 21, 2012

12:00 pm to 4:30-ish

(Rain date: Sunday July 22, same time)

Open to all OA members
and friends and family

Bucks County River Country (BCRC) • 2 Walters Lane, Point Pleasant, PA • (215) 297-5000
Tickets are \$26.00 per person • Parking is \$5 per car, so carpooling is advised!

Join us on July 21st for an afternoon of serenity, fun, and fellowship on the Delaware River. At 12:00 find your intergroup's representative to hand in your ticket and get your hand stamped for entry. Then we'll check-in, turn in our liability waivers, pick up our tubes, and head for the bus. The check in process can take between 30 to 60 minutes, depending on the crowds and size of the group. The bus will take us upriver and drop us off to float back down to our cars. The float trip takes around 3 hours. There are no bathroom facilities on the way, but you can put to shore and use the bushes if needed.

In the event of a thunderstorm, BCRC will cancel all activities, and our event will be rescheduled for July 22, weather permitting. Please check the SJIG website 24 hours before departing for the latest event information and any possible weather cancellation. <http://southjerseyoa.org/events>

To purchase tickets, contact:

lmastroia@gmail.com (CIIG) • SJIGFundraising@gmail.com (SJIG) • Debra at 267-229-7562 (PAIG)

More Information:

- You must sign a liability waiver to participate. To speed up the check-in process we request that you bring a completed form with you. Download a copy of the waiver at: <http://www.rivercountry.net/liabilityrelease.pdf>
- There are nice places to explore along the PA and NJ sides of the river in this area, so you might want to make some plans for dinner afterwards with your friends and family.
- It is strongly suggested you wear water shoes or old sneakers. The river bottom is rocky, and at times you may have to walk across shallow pools. Attire is up to you – bathing suits, with or without shorts and tee-shirts is up to you. Don't forget water-proof sunscreen, and a hat. Also, a float attached to sunglasses is a great way not to lose them.
- If you want to, bring Frisbees or waterproof footballs, or other things to toss around the river. This is a lot of fun to do when you float with a big group.
- Don't forget to have a change of clothes and a towel in your car for when you get out of the river. There are changing facilities at BCRC, but no showers.
- If you want to have a picnic lunch beforehand, there are a few tables at the site. Tohickon Valley Park is a mile up the road as well. Check out the park's site here: <http://www.buckscounty.org/government/departments/parksandrec/parks/Tohickon.aspx>

Please see reverse side for important additional information from
Bucks County River Country

Important Information from BCRC:

It is very important that the following information be provided to you and all individuals that will be attending your scheduled reservation. We insist that you give this orientation information at your facility BEFORE embarking on your trip to Bucks County River Country.

1. The Delaware is a RIVER, not a controlled pool. The average water depth is 1 to 4 ft., with a few deeper pools of 7 feet in depth and there will be small rapids and rocks.
2. There are NO safety personnel on the river, nor are there any lifeguards.
3. All attendees should be able to swim and anyone under the age of 17 MUST wear life jackets at all times during their float.
5. If you get out of the tube at any time, you MUST hold onto it as the current or a breeze can take it away.
6. Children must stay close to their counselors; we recommend a minimum of 1 counselor for every 10 kids. Tubing is not recommended for camps with children under the age of 10.
7. The counselor must be a strong water person and swimmer. Each counselor must stay with their group of children at all times.
8. Our tubes are equipped with two air chambers.
9. Since there are no lifeguards or safety personnel on the river, your group counselors are responsible and in charge of your group.
10. A map is printed on our tubes or a map is provided with boat activities. The route should be followed to stay in the time frame chosen and to avoid any slow-moving water.
11. All tubes, life jackets and paddles must be returned to the proper location. Please be advised that a charge will be assessed for any lost or damaged equipment.
12. Personal beverages are not permitted on any of our outings. You may purchase your beverage at the Riverside Cafe. Food is NOT permitted on tubing trips.
13. Upon arrival, we highly recommend checking your car keys at The River Supply Store (located on the premises). Keys are lost in the river almost daily even when they were “safely attached” to a bathing suit. Consider the possibility that any item brought on the river can be swept away! Locksmiths can be very expensive (\$200 or more).
14. Alcohol consumption is prohibited anywhere on BCRC’s grounds or on your outing (strictly enforced)!
15. Be prepared and stay together (you can purchase ties to keep your group or family together at The River Supply Store located on the premises).
16. For additional lodging, dining and other activities in our area, visit our *links* page, stuffed full of local Restaurants, lodging facilities, and Historic attractions of Bucks County. Also check out Bucks County Conference and Visitors Bureau <http://www.buckscountycvb.org>
