

A reminder to all meetings to ask first time newcomers how did they find us, very important to know this in getting our message out and attracting new members.

Our next intergroup meeting is April 10, Hello Friends,

Very happy to again report at this month's intergroup meeting we had a great turnout of 14 reps and myself. We proceeded with business beginning at 7 PM this past Friday, March 13.

The voting results are in on the 2026 World Service Business Conference (WSBC) business agenda. This vote was for what intergroups and service bodies feel have merit to be on the business agenda. All business and bylaws motions received the necessary 50% vote and will appear on the agenda.

Also included is a link to our CJJ website event page with additional event flyers and meeting information plus a link to the March WSO News Bulletin. Included is the link to business agenda for the 2026 WSBC.

You may want to discuss some of these motions with your groups. In April we will be voting if we are in favor or against the motions. Lucille P will be our delegate in Albuquerque.

The intergroup will be discussing changing our meeting from the second Friday of the month to possibly Sunday and would like to have feedback from everyone on this note and anyone in our intergroup so please share this survey link. The survey is now live and most likely will discuss the results at the May intergroup meeting.

hope to see you all there.

Yours in Service and Recovery, Ross
